HDD Drilling Technology

For your success – Made in Germany

The name PRIME DRILLING stands for highest precision and continuous innovation with the construction and development of robust HDD (Horizontal Directional Drilling) systems. We use high-quality materials to develop a low-maintenance, robust and reliable drilling rig with an above-average service life.

Profund know-how in drilling technique, high production quality and perfect service are the outstanding benefits for our customers and the pillars of our company's success.

About us

Prime Drilling GmbH has specialised in the development and manufacture of modern horizontal drilling rigs. Founded in 1999 by Werner Wurm and Frank Auringer, the company has grown continuously over the last years. Today our company is reknown all over the world for highest expertise and constant innovation with designing and developing of HDD (Horizontal Directional Drilling) systems. We only use first-class materials in the development of our low-maintenance and robust drill rigs, which excel in an extra long service life. Unrivalled competence in drilling technique, high production quality and perfect service are the pillars of our company. We are currently manufacturing high-quality drill rigs and accessories on a 4,000 m² production area with 800 m² office space.

Products

- Aggregates
- Compact Drilling Rig
- Drill Rigs
- Prime Pipe Pusher
- MDD-Rigs
- Mud Pump Units
- Used drill rigs
