

Watertec T.A. GmbH

Company Outline

- **Contact:** Nicolas Al-Kebbeh
- **E-Mail:** info@watertec-ta.de
- **Website:** www.watertec-ta.de
- **Founded:** 1987
- **Profile:**

We are a German manufacturer of water desalination plants (by Reverse Osmosis), focusing on a medium size range. Our main focus is North Africa and the Middle East. Since a few years we do most of our business in Egypt. Watertec is a family business, founded by Dr. Elias Al-Kebbeh. In 1997, Watertec founded with partners the Egyptian Company Safa Water Technology, which is a local water provider, supplying water to many Hotels in Hurgada by pipeline or trucks. Watertec has its own Service company, also located in Hurgada, called Interwater. Interwater does the installation of Watertec plants, but also the operation of RO plants (all manufactureres) in Egypt. The synergy of the three companies, Watertec has a strong USP in Egypt.

Products

- Reverse Osmosis plants for desalination of sea- or brackishwater in a range from 100 to 10.000 m³/day

Intended Cooperation

- Representation of the product / services towards the end customer / user (commission based)
- Direct export / sales to the end customer / user
- Our clients are mainly hotels or industry, but also the agriculture field, water suppliers and we supply for the use in ports or on ships.
